Commissioner for Patents

The reply filed on September 28, 2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant elected group II (d) without traverse. Group II (d) of the restriction requirement is drawn to a method using a resistance test vector with a mutation at codon 66. Applicant states that newly presented claims 130-192 fall within the scope of the elected invention. However, since the instant methods presented do not comprise a resistant test vector, or a vector that is presumably resistant to something, the newly presented claims do not fall within the scope of the elected invention and the election is considered non-responsive. See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
